```
t F(int $n) {  
    if($n == 0 || $n == 1) {  
        return $n;  
    }else{  
        return F($n - 1) + F($n - 2);  
    }  
}  
  
main(int $b)  
{  
    return F($b) ;  
}
```

Ziel

Lexer

```
int F(int $n){  
    if($n == 0 || $n == 1){  
        return $n;  
    }else{  
        return F($n - 1) + F($n - 2)  
    }  
}  
  
int Main(int $b)  
{  
    return F($b);  
}
```

Token

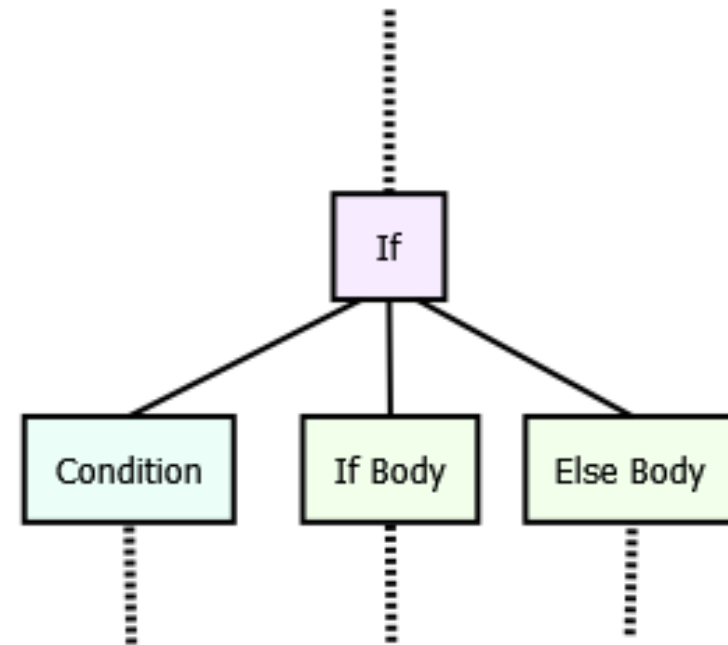

- Keywords (If, While, ...)
- Symbols (=, ; , ...)
- Operatoren (+, -, ==, ...)
- Literals (Number, Bool, Char)
- Control Token (EOF)

Parser

Ergebnis Tokens aus dem Lexer
